Pole Key Anchors

CHOOSE GRIP-TITE

It's not about what, it's about how...

There's no magic in utility anchors, these products have remained largely unchanged for decades. The magic lies in how they are produced and delivered to our customers. We're different. We provide all the quality and support of a large manufacturer with the service and feel of a family-owned Midwest business. Our personal values are our company values, and we treat our customers like family.

WHY WE ARE DIFFERENT

- ✔ Customer service excellence
- ✔ Made with American Steel
- ✔ We have been manufacturing anchors for over 100 years
- ✔ Made in America (Winterset, Iowa)
- ✔ Shorter lead times than our competition
- ✔ Grip-Tite anchors have been installed by utilities for over 20 years through MacLean Power Systems

We make them differently.
